

PUBLISHED BY AUTHORITY

SIMLA, SATURDAY, JANUARY 8, 1955

Separate paging is given to this Part in order that it may be filed as a separate compilation

## PART III—SECTION 2

### Notifications and Notices issued by the Patent Office relating to Patents and Designs

#### THE PATENT OFFICE Patents and Designs

Calcutta, the 8th January 1955

#### Special Notice

It is hereby notified for general information that the following Groups of Abridgments of Patent Specifications (Nos. 25,001 to 30,000) have been published and copies thereof are available for sale with the Manager of Publications, Civil Lines, Delhi, at Re. 1 per copy.

Copies are also available for sale locally at the counter of the Government of India Book Depot, 8, Hastings Street, Calcutta on cash payment.

Group LVI—Wheels and Tyres for Vehicles.

Group LIX—Electric Switches and Switch Gear, Motor Control Systems.

#### CORRIGENDA

(1)

In the Gazette of India, Part III, Section 2, dated the 25th December 1954, in page 258, column 2, under the heading "Applications Accepted"—

for No. "42020" read No. "52020".

(2)

In the Gazette of India, Part III, Section 2, dated the 1st January 1955, under the heading "Renewal Fees Paid"—

for No. "44575" read No. "44576".

#### Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

23rd December 1954.

53411. Svenska Aktiebolaget Gasaccumulator. Welding or soldering pin with fuse wire.

53412. H. W. Ward and Company Limited. Stock feed mechanisms for lathes. (25th January 1954).

53413. Sawyer's Inc. Holder for stereo-paired transparencies and method of manufacture.

24th December 1954

53414. Council of Scientific and Industrial Research. Process of treating molasses to give a solid material and the use of the same in phenolic-type plastics.

53415. Scholven-Chemie Aktiengesellschaft. Process for the purification of crude benzene or the like. (16th December 1954).

53416. Aktiebolaget Scania-Vabis. Oil purifying device for internal combustion engines.

53417. Westinghouse Air Brake Company. Fluid pressure brake apparatus.

53418. The Bharat Carbon & Ribbon Mfg. Co. Ltd. A box or container.

53419. A. Kagalwal. Improvements in and relating to electric post top lanterns for outdoor and indoor illumination.

53420. KO-WE Niederschachtofen Gesellschaft m.b.H. A method for smelting fine-grained charge components in a shaft furnace.

27th December 1954

53421. T. J. R. Bright. A method and apparatus for producing an accurately dimensioned pattern of an object it is desired to reproduce. (31st December 1953).

53422. Compagnie Parisienne D'Outillage A Air Comprime. Improvements in or relating to apparatus for transporting and distributing concrete or the like.

53423. Compagnie Parisienne D'Outillage A Air Comprime. Improvements in or relating to apparatus for projecting plastic, semi-plastic and like materials.

53424. Imperial Chemical Industries Limited. New colouring matters. (6th January 1954).

53425. Imperial Chemical Industries Limited. Dyestuff compositions. (6th January 1954).

53426. Imperial Chemical Industries Limited. New compositions containing phosphorous esters. (11th January 1954).

53427. J. Bellezanne. Refractory binder chiefly for wax and the like moulding methods.

53428. Mira, Narodni Podnik. A method and device for periodic gauging of equal lengths of thread and weaving with different wefts on shuttleless weaving looms.

53429. Dr. G. R. Savur. Cold process of manufacturing "Pectin" (also known as polyose or polysaccharide) from tamarind kernel powder.

53430. Henry Simon (Holdings) Limited. Improvements in relating to apparatus for remoulding or retreading tyres for vehicles. (15th January 1954).

53431. L. R. F. Harris. Improvements in or relating to time division multiplex communication systems.

53422. Henkel & Cie. G.m.b.H. Process for the production of aromatic carboxylic acids and/or their derivatives.

53433. R. P. Heuer. Improvements relating to refractory bricks and to refractory wall and roof making. (1st January 1954).

53434. A. C. Wickman. Hydraulic clutch.

28th December 1954

53435. Heinrich Koppers G.m.b.H. Process and apparatus for the production of gases. (21st December 1954).

53436. Pulin Bihari Ghosh. A device for providing automatic haltage-stand for bicycles enabling the bicyclists to remain mounted when brought to halt.

53437. Sylvania Electric Products Inc. Improvements in or relating to electromagnetic coils.

53438. Elektro-Thermit G.m.b.H. Improvements in or relating to aluminio-thermic welding of rails and the like.

53439. Macleans Limited. Improvements in or relating to the manufacture of tablets. (28th January 1954).

29th December 1954

53440. J. G. Talati. Improved reinforcement cage forming or assembling device and method of forming reinforcement cages for concrete pipes and the like.

53441. Mrs. Janak Dulari Dhawan. Improvement in or relating to electric heaters, of the fire-caly plate type.
53442. Capt. S. Ramachandran. Improvements in relating to an injection syringe.
53443. Premier Electric Heaters, Limited. Improvements in or relating to electric cut-outs. (2nd January 1954).
53444. Vandervell Products Limited. Improvements relating to the joining together of metal parts. (11th January 1954).
53445. British Insulated Callender's Cables Limited. Improvements in or relating to apparatus for making wires and cables and the like. (20th January 1954).
53446. Simon-Carves Limited. Improvements relating to coal or ore washing plant. (11th January 1954).
53447. P. C. Patin and M. C. Garnier. Improvements in or relating to conjugate gears and methods of machining same.
53448. The Rawlplug Company Limited. Improved expansion bolt.
53449. J. Esswein and G. Henry. Improvements in or relating to ignition coils for internal combustion engines.
53450. The Indian Oxygen & Acetylene Company Limited. Improvements in or relating to the purification of gases or gas mixtures. (7th January 1954).
53451. Creed & Company Limited. Multiple stylus.
53452. Creed & Company Limited. Facsimile scanning mechanism.
53453. Creed & Company Limited. Electrically inscribable lithographic offset printing plate.
53454. Ciba Limited. New organic compounds and process for their preparation.

#### Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of the specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

49425. Council of Scientific and Industrial Research. Enamels for wire wound resistors. Accepted on 23rd December 1954.

Comprising 55—58 per cent. PbO, 5—8 per cent. Al<sub>2</sub>O<sub>3</sub>, 10—15 per cent. B<sub>2</sub>O<sub>3</sub>, 8—11 per cent. SiO<sub>2</sub>, and 12—16 per cent. Colourants.

49788. Y. Minemura, Z. Kudo, K. Shirakawa, T. Nakajima, I. Sato, N. Seki, Y. Matsumoto, Y. Uchiyama and Y. Iwata. Process for the manufacture of crude calcium cyanamide. Accepted on 23rd December 1954.

By suspending calcium carbide particles together with calcium cyanamide above a bed through which nitrogen gas is passed.

49790. H. List. Improvements in or relating to a rotary valve for controlling the exhaust outlets of two-stroke internal combustion engines. Accepted on 24th December 1954.

Width of valve face is smaller than the distance between the stub shafts.

49807. J. M. R. A. Delourme-Houde. Process for the production of new amino-ethers. (12th January 1953). Accepted on 23rd December 1954.

Reacting 5, 8-dihydroxy-2-methyl-4', 5'-furo-6, 7-chromone with tertiary amino lower alkyl halide or its hydrohalide in inert atmosphere.

49808. Y. Minemura, N. Seki and Y. Uchiyama. Process for the production of white calcium cyanamide. Accepted on 24th December 1954.

Suspending powdery or granular calcium carbonate in a reaction zone in a stream of ammonia gas and maintaining the particles in an agitated state.

49862. E. G. Fussell and C. B. Champion. Improvements in or relating to heel top pieces for boots and shoes. Accepted on 23rd December 1954.

The top piece has a metal reinforcement in the form of an arcuate treading portion extending around the back of top piece and also has an recessed flange.

49866. The Mining Engineering Company Limited. Roof supports. Accepted on 24th December 1954.

Comprises a roof support, an energy storing device and means to release the energy when required.

49867. The Mining Engineering Company Limited. Roof supports including chock structures. Accepted on 24th December 1954.

Comprises a resilient supports adapted to be compressed, means for locking the support which is releasable.

49868. The Mining Engineering Company Limited. Roof supports. Accepted on 24th December 1954.

Comprises hollow ram as a fluid reservoir operating in a cylinder, a relief valve and a hydraulic accumulator.

49893. H. List. Device for reversing; the direction of rotation of internal-combustion engines, more particularly of two-stroke internal-combustion engines with fuel injection. Accepted on 28th December 1954.

Rotary pistons of the drag couplings are reversed by admitting compressed air to it and retained in position by means of pressure oil from the circulating lubricating system.

49907. Tecalemit Limited. Improvements relating to rotary piston meters. (6th August 1952). Accepted on 29th December 1954.

Means to adjust volumetric accuracy of the meter externally without disconnecting the mechanism.

49984. P. J. Packman. Improvement relating to the manufacture of small objects. (28th July 1952). Accepted on 28th December 1954.

In the series of stages of manufacture the objects are attached individually to a strip of flexible material which is led through the stages of manufacture so as to convey the objects one after the other through said stages.

50275. P. N. Contractor. Improvements in or relating to flushing cisterns for water closets or the like. Accepted on 23rd December 1954.

Having U-shaped inverted syphon with a ball-cock water inlet arrangement adapted to raise liquid level on actuation into syphons yoke.

50894. The Wellcome Foundation Limited. Improvements in or relating to phenoxy alkanes. Accepted on 23rd December 1954.

By the conversion by known methods of corresponding phenoxy alkanes having a group convertible to a primary amino group.

51036. Organon Laboratories Limited. Process for the preparation of adrenocorticotrophic hormone preparations. Accepted on 24th December 1954.

Normal hormone (ACTH) in aqueous solvent is combined with one or more salts, hydroxides or oxides of the metals zinc, nickel, cobalt, copper and iron.

51080. The Firestone Tire & Rubber Company. Improvements in or relating to tire tread. Accepted on 23rd December 1954.

Comprising tread portion formed with a plurality of circumferential ribs defining intervening grooves some of said ribs being formed with a multiplicity of angular blocks.

51095. E. G. Stimpson. Improvements in or relating to sheet material dispensing apparatus. (20th January 1953). Accepted on 27th December 1954.

Comprising roll of material within housing and exterior means for manually operating a mechanism of rollers to grip and feed the material out.

- 51240.** N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to transistors. Accepted on 24th December 1954.  
*Consisting of two or more parts of different conductivity in which a certain amount of soldering metal is provided on the outer surfaces of the thin part and at least one adjoining thicker part, the said metal and the thicker part being separated by a thin layer of the body which is of the same kind of conductivity as the thin zone.*
- 51320.** Yardney International Corp. Improvements in or relating to electric batteries. (20th February 1953). Accepted on 27th December 1954.  
*Of the type wherein a diaphragm of semi-permeable material separating the electrochemically active materials of opposite polarity comprising the electrodes is maintained under compression and is impregnated with an electrolyte comprising alkali metal hydroxide saturated with zinc.*
- 51456.** Compagnie Generale De Telegraphie Sans Fil. E. Honore, E. Torcheux and G. G. J. Cordier-Roy. Improvements in or relating to variable capacitors and method of producing same. (13th March 1953). Accepted on 24th December 1954.  
*Comprises two coaxial cylindrical sleeves one being slotted and having conductive coatings to serve as electrodes one movable in relation to the other.*
- 51468.** Schwanhauser & Co., K. G. also trading as Swan Pencil Co., Schwan-Bleistift-Fabrik. A pencil sharpening device. Accepted on 29th December 1954.  
*It is combined with a cap for the pencil, the conical bore in the sharpening device and the bore in the extension is co-axial with each other.*
- 51536.** N. V. De Bataafsche Petroleum Maatschappij. Method of reducing corrosion of corrodible metal surfaces which are in contact with an aqueous amine solution. Accepted on 28th December 1954.  
*Adding alkali metal orthophosphate to aqueous amine solution in contact of which the metal surfaces are.*
- 51549.** Naamlooze Vennootschap W. A. Scholten's Chemische Fabrieken. A process of improving the physical properties of the soil and of preparing soil conditioners. Accepted on 24th December 1954.  
*A starch product is incorporated in the soil.*
- 51607.** Douglas Aircraft Company, Inc. Improvements in or relating to new compositions of matter. Accepted on 27th December 1954.  
*Mixture of chlorinated biphenyl and tri-aryl phosphate or di-aryl-alkyl phosphate.*
- 51868.** Rheinpreussen Aktiengesellschaft fuer Bergbau und Chemie. Reaction apparatus for carrying out exothermic and endothermic gas reactions. (30th March 1954). Accepted on 24th December 1954.  
*The liquid heat transfer medium is passed in bundle of tubes disposed in the lower two third of the chamber.*
- 51895.** Smitsvonk N. V. Low tension surface discharge sparking plug. Accepted on 27th December 1954.  
*With exchangeable sparking element, the plug body being provided with a central continuous exchangeable spindle, on the outer end of which the sparking element is fastened.*
- 51897.** Smitsvonk N. V. Low tension ignition system for jet engines, gas turbines, oil burner boilers and similar installations. Accepted on 27th December 1954.  
*Operating with condenser discharging through surface discharge sparking plugs, a sparking plug being placed in each combustion chamber and these plugs being connected in succession to the ignition condenser by rotating contact apparatus.*
- 52120.** The Chairman, Indian Tea Association. Tunnel for withering tea leaf. Accepted on 24th December 1954.  
*Comprises a section for admission of conditioned air and another section for the exhaust of air admitted, said two sections being separated by an intermediate air-flow space which is adapted to be closed during the withering operation so as to form a continuous passage substantially closed to the atmosphere.*
- 52149.** Wingfoot Corporation. Improvements in tires. Accepted on 23rd December 1954.  
*Consisting of one rubbery material and polychloroprene.*
- 52152.** The Indian Oxygen & Acetylene Company Limited. Improvements in or relating to oxygen cutting machines. (30th June 1953). Accepted on 27th December 1954.  
*Of the type in which the torch assembly is supported at a constant distance from the surface of the plate being cut by a plate riding roller, the movement of which conforms to the irregularities of the plate surface, the plate riding roller being provided with one or more internal conduits for the passage of coolants.*
- 52193.** The Goodyear Tire & Rubber Company. Tire bead spacer. Accepted on 23rd December 1954.  
*Comprising a continuous inextensible band of stiff material of an outer radial dimension larger than the inner radial dimension of the beads.*
- 52262.** Massey-Harris-Ferguson (Sales) Limited, (formerly named Harry Ferguson Limited). Improvements relating to tractor-trailer hitches. (3rd July 1953). Accepted on 27th December 1954.  
*Trailer hitch linkage having combined with it toggle links adapted to serve as a prop for the linkage when positioned with the hitch raised and idly folded when hitch is lowered.*
- 52266.** Automatic Telephone & Electric Company Limited. Improvements in capacitors. (5th August 1953). Accepted on 23rd December 1954.  
*Includes the step of attaching terminal member by threading such members through holes formed towards the end of the capacitors.*
- 52331.** R. W. Young. Improvements relating to the manufacture of light-weight cellular material from clay. Accepted on 24th December 1954.  
*Clay is brought to the form of a stiff paste by mixing it with a foam.*
- 52379.** J. Dangler. Improvements in drying of fabrics, papers, cardboard and other sheet materials. Accepted on 28th December 1954.  
*Some components of treating fluid by treating effect is induced to emit radiations.*
- 52412.** British Telecommunications Research Limited. Improvements in and relating to electric signalling system. (21st September 1953). Accepted on 28th December 1954.  
*Including a first and a second station, each station comprising a transmitter and a receiver, the first station having frequency shifting and restoring means.*
- 52483.** Dorman & Smith Limited. Improvements in and relating to electric switches and circuit breakers. Accepted on 23rd December 1954.  
*Comprises a fixed part secured on an insulating base and movable part pivoted on the fixed part.*
- 52570.** Stamicarbon N. V. Apparatus for and process of concentrating or classifying particles suspended in a liquid. Accepted on 27th December 1954.  
*A hydrocyclone has a discharge aperture and by suitable means fluctuation in discharging fractions are restricted.*
- 52668.** Swan Mills Limited. Device for automatically stopping looms for weaving successive piece lengths. Accepted on 29th December 1954.  
*Alternately operating control means to stop the loom once at the beginning of each piece length and then at the end of each piece length being woven.*
- 52764.** N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to refrigerating devices comprising a gas-refrigerator. Accepted on 27th December 1954.  
*As auxiliary medium is used is made of vapour the boiling temperature of which is less than 20°C at pressure of 20 atmospheres while pipe-system at a maximum contain 1 gram-molecule per dm<sup>3</sup>.*

**Printed Specifications Published**

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy :—

46912. 46914. 47324. 47325. 47366. 47407. 47436. 47451. 47589.  
47593. 47865. 47898. 47924. 48184. 48538. 48585. 48696. 48770.  
48771. 48824. 49019. 49048. 49129. 49255. 49274. 49371. 49400.  
49477. 49508. 49569. 49580. 49581. 49585. 49592. 49594. 49660.

**Patents Sealed**

48745. 48746. 48862. 48925. 48951. 48956. 48969. 48984. 49004.  
49061. 49174. 49191. 49648. 51207. 51254. 51408. 51441. 51657.  
51890. 51904.

**Amendment Proceedings**

(1)

The amendment proposed by Titan Company, Inc., in respect of Patent No. 48233 as advertised in the Gazette of India, Part III, Section 2, dated 18th September 1954 has been allowed.

(2)

The amendment proposed by Pest Control Limited in respect of Patent No. 50962 as advertised in the Gazette of India, Part III, Section 2, dated 11th September 1954 has been allowed.

**Registration of Assignments, Licences, Etc.**

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest :—

42510. Brish Electrical & Pumps Limited.  
42542.  
43583.  
43678.  
43679.  
43789.  
44629.  
46504. Farbenfabriken Bayer Aktiengesellschaft.  
46687.  
46954.  
47015.  
47016.  
47166.  
48367.  
49043.

**Renewal Fees Paid**

38900. 38901. 38902. 38914. 38932. 38933. 38934. 38958. 39019.  
39020. 39021. 39105. 39106. 39324. 39338. 39341. 39346. 39397.  
39569. 39889. 40495. 40618. 40695. 40759. 40800. 40836. 40889.  
40958. 40972. 41112. 41667. 42593. 42602. 42661. 42768. 42769.  
42887. 42942. 42945. 43134. 44279. 44327. 44356. 44357. 44367.  
44381. 44400. 44409. 44440. 44441. 44442. 44443. 44444. 44455.  
44488. 44500. 44574. 44588. 44598. 44599. 44657. 44676. 44690.  
44819. 44820. 44857. 44959. 44968. 44992. 45001. 45004. 45026.  
45911. 46052. 46384. 46415. 46581. 46593. 46768. 46769. 47044.

**Cessation of Patents**

25583. 28861. 29057. 29421. 29983. 31775. 33295. 33312. 40303.  
40322. 40323. 42022. 42710. 43801. 43809. 43820. 43827. 43829.  
44874. 45751. 45862.

**Registration of Designs**

The following designs have been registered. They are not open to inspection for a period of two years, from the date of registration except as provided for in Section 50 of the Indian Patents and Designs Act.

The date shown in each entry is the date of registration of the design included in the entry.
